SUMMARY

Highly motivated and analytical **DATA SCIENTIST** with a strong foundation in **Machine Learning, Deep Learning, and Data Analytics**. Holds a **BSc (Hons) in Data Science** (Cardiff Metropolitan University) with a **Second Class Upper**, and currently pursuing a **BSc (Hons) in Business Information Systems** at the **University of Sri Jayewardenepura** (GPA 3.92). Alongside an **MSc Applied Artificial Intelligence** Student. Experienced in developing **AI-driven predictive models, data-driven optimization systems, and end-to-end ML pipelines** using Python, TensorFlow, and Flask. Passionate about applying **AI and data analytics** to global challenges such as **Climate Finance and Carbon Trading**

CORE SKILLS & TECHNICAL PROFICIENCY

- **Programming Languages:** Python, R, SQL, JavaScript, PHP coding
- **Machine Learning & Deep Learning:** scikit-learn, TensorFlow, Keras, XGBoost, Prophet, Random Forest, Regression Models
- **Data Analytics & Visualization:** Pandas, NumPy, Matplotlib, Seaborn, Power BI, Streamlit, Statistics
- **Frameworks & Software development tools:** Flask, Laravel Blade, Git, API Integration, MVC Architecture, Spring Boot, Flutter, programming skills
- **Data Engineering:** Data Preprocessing, Feature Engineering, Data Cleaning, Model Deployment, Advanced analytics, fintech
- **Soft Skills:** Analytical Thinking, Communication, Teamwork, Autonomy, Curiosity, Problem Solving, Writing Skills
- **Certifications:** Google Advanced Data Analytics (Coursera), CIMA Operational Level (Ongoing)

EDUCATION QUALIFICATIONS

MSc Applied Artificial Intelligence **2026 - PRESENT**
University Of Westminster, UK (Affiliated Program – IIT, Sri Lanka) - Reading

- *Among the first cohorts of this Applied AI Master's program delivered in Sri Lanka*

BSc (Hons) in Business Information Systems (Special)

2023 - PRESENT

University of Sri Jayewardenepura — Undergraduate

- GPA: 3.92

BSc (Hons) in Data Science

JUN 2021 - FEB 2024

Cardiff Metropolitan University (ICBT Campus)

- Second Class Upper Division

G.C.E. Advanced Level – Commerce Stream

JAN 2023

- Subjects: ICT, Accountancy, Business Studies — 3 A's
- General English – A Pass
- District Rank: 84 | Z-score: 1.97

G.C.E. Ordinary Level

DEC 2019

- 9 A's including Mathematics, Science, ICT, and English.

LEADERSHIP & EXTRACURRICULAR ACTIVITIES

- **President**, S@IT (Student Association of IT), University of Sri Jayewardenepura for year 2026
- **Organizing Committee Member**, D'Hack & Sparsha 2025
- **School Senior Prefect**, and active member of **Cricket, Chess, and Debate Teams**
- **President**, multiple school and university clubs, demonstrating teamwork and leadership

ACHIEVEMENTS

- **Google Advanced Data Analytics Certificate** (Coursera)
- **District Rank 84** in G.C.E. Advanced Level (Commerce Stream)
- **9A's** at G.C.E. Ordinary Level
- Completed several **AI and ML projects** demonstrating applied data science proficiency.

EXPERIENCE AND PROJECTS

Deep Learning–Based Pneumonia Detection from Chest X-rays

- Designed and implemented a **Convolutional Neural Network (CNN)** to classify pneumonia from medical images.
- Performed **data preprocessing** and **feature engineering** using **TensorFlow, Keras, and scikit learn**.

- Built an interactive **Streamlit dashboard** for model inference and results visualization.
- Utilized **Git** for version control and model tracking.
- [https://github.com/dilutha/Pneumonia X-tray Detection](https://github.com/dilutha/Pneumonia_X-tray_Detection)

Farmer-to-Market Optimization Platform

- Developed a **Laravel Blade web application** using **MVC architecture** for agricultural market linkages.
- Integrated **XGBoost** and **Prophet** models to forecast crop demand and pricing trends.
- Implemented backend using **Flask APIs** to connect predictive models with frontend systems.
- <https://github.com/dilutha/farm-to-market>

RidePulse – AI-Driven Public Transport Intelligence System

- Built a **conductor-based digital ticketing system** with real-time revenue and GPS data capture.
- Integrated **ML models** for demand forecasting and route performance analytics using Python.
- Developed scalable backend services using **Spring Boot and PostgreSQL** and Frontend using **Flutter**.
- <https://github.com/dilutha/RidePulse>
